

	Penetration panel	AQL Screened Room 1 is a fully lined chamber in accordance with EN61000-4-3 and therefore easily exceeds the requirements of DEF STAN 59-41 & 59-411, RTCA DO-160 and MIL STD 461, allowing both very sensitive emissions testing and high power susceptibility testing up to 40GHz. The chamber can be configured with/without various ground plane arrangements offering complete flexibility for our clients individual needs. The chamber is fully equipped for both single and three phase 50Hz, 60Hz and 400Hz AC supplies and high current DC supplies and features the common penetration panel arrangements used throughout the facility.
